RE: Updated Wellington Reclamation Costs

Dear Mr. Haddock:

Enclosed please find documented estimates for reclamation costs and replacement sections for Chapter 8 of Wellington Preparation Plant's MRP. The new information should be insertable to the existing plan.

To update the costs of reclamation at the Wellington we have: 1) utilized the new (1991) mapping information, 2) recalculated volumes and quantities, 3) updated equipment to increase efficiency, 4) re-evaluated the work force, 5) used building spec. drawings (consequently separating the metal and concrete materials) and 5) recognized shorter haul road distances.

In the end we feel we are submitting an accurate, updated and fully documented schedule of cost estimates for reclamation at Wellington. We greatly appreciate the Division's involvement in this process including the working meetings and conversations with you, Randy Harden and Wayne Western.

We will give you and your staff a few days to begin reviewing the document, then give you a call. If at that time you have questions and would like to meet again with Greg Poole and Rick Collins, they would be happy to do so. If you have any questions before that time, please do not hesitate to call them.

Sincerely,

Robert Mower
Vice President
